Day 1 – Homework

- Read Module 2 handouts
- Install Virtual box on your PC
- Create your first new VM (The specification is below)
- Download and Install Linux CentOS on your virtual box
- After the installation familiarize yourself with GNOME desktop environment. Most likely you will not be working a lot on the GUI but I would still recommend to know a few features of desktop GUI
- Specification for Linux VM is as follow:

CPU = 1
Memory = 2G
Disk Space = 10G

- Change your password
- Create 10 files under your home directory (File names = jerry, kramer, george, lex, clark, lois, homer, bart, lisa, and marge)
- Create 3 directories under your home directory (Dir name = seinfeld, superman and simpsons)
- List files in your home directory by the last time they were modified
- Move jerry, george, kramer and puddy files into seinfeld directory
- Move homer, bart, marge, lisa files in simpsons directory
- Move clark, luther and lois files in superman directory
- Create 2 new files in seinfeld directory, eliane and newman
